

PRIMARY SCHOOLS NEEDED TO COMPLETE SURVEY ABOUT OUTDOOR ENVIRONMENT CHARACTERISTICS

We are looking for schools to complete a survey about outdoor environment characteristics of primary schools.

The survey is on-line and can be completed in about 20 minutes by any member of staff who is reasonably well informed about school activities and procedures.

All schools which return a survey will be entered into a draw with the chance of winning £150 of playground equipment.

Please go to the survey address and complete the on-line questions if you would like to take part in this study. Further details about the study can be found through a link at the start of the survey.
