

## **Privacy statement**

The personal information requested on this form has been stated as necessary by Health Education England (HEE) as part of essential data collection to support COVID-19.

The information you provide will only be used for the purpose of maintaining a register of volunteer students who 'opt in' and managing deployment of nursing, AHP and pharmacy resources in the response. The information will be shared with Government, Health Leaders, and Regional workforce cells (including HR Directors) to inform key activities and management of resources during this crisis. This may include sharing across Arm's Length Bodies and data partners. This will support efforts to match students who wish to volunteer to appropriate placements and enable records to be linked to Electronic Staff Records as required. The information will be retained on the register for a maximum of 6 years, or until the COVID-19 pandemic no longer requires student deployment. All data will be stored securely in line with General Data Protection Regulations. We appreciate your support in this effort. By submitting this form, you are consenting to sharing your personal data with HEE for the purposes explained above. A DPIA is available.
